NOVEMBER 2023 NEWSLETTER

Emergency Health Profile

IT COULD SAVE YOUR LIFE!

Individuals can create an Emergency Health Profile, providing first responders with the critical information they need to care for you in a medical emergency. During these uncertain times, taking this important step can help provide the peace of mind of knowing that in an emergency you and your loved ones have the most effective response possible.

Nobody anticipates an emergency but if it happens, we've got you covered. Create your free emergency health profile so your critical information will be shared with first responders.

Add your allergies, medications, pre-existing conditions and more. You'll receive the care you need, at the moment you need it.

Complete your profile today at emergencyprofile.org

Thank you!

We want to extend our sincerest thanks to New England Steak & Seafood in Mendon for generously providing our team with meals on Thanksgiving. The food was absolutely delicious! We would also like to thank the Mendon Police Department for helping to coordinate the delivery!
